This competition offers international classification for the following impairment types:

- Physical Impairment (PI) – 22 to 24 April, BPTC
- Vision Impairment (VI) – 22 to 24 April, location TBC

At competitions where classification is offered, World Para Swimming will schedule athletes with a New or Review status pursuant with the below regulations. Preference will be given to NPCs that submitted their prioritised classification requests for the 2019 season by the announced deadline.

An athlete will only be permitted to undergo International Classification if he or she:

- Is licensed with World Para Swimming pursuant to the relevant provisions in the World Para Swimming Rules and Regulations;
- Has been entered into the competition by the entry deadline;

- Has submitted Medical Diagnostics information (Medical Diagnostic Form and supporting documents) to the Sport Data Management System (SDMS) by the final entry deadline

Depending on the athlete's health condition and impairment, additional medical diagnostic information may be requested at any time (as per article 7.6 of the World Para Swimming Classification Rules and Regulations, January 2018). If an athlete fails to produce sufficient medical documentation and the classification panel considers that the absence of such medical documentation will affect its ability to conduct Athlete Evaluation in a fair manner, classification will be suspended as per article 30 of the World Para Swimming Classification Rules and Regulations (January 2018).

Where a classification schedule is full:

- World Para Swimming will prioritise athletes based on the priority lists submitted by the National Paralympic Committees;
- World Para Swimming will have a discretion to distribute the number of classification slots per National Paralympic Committee
- World Para Swimming will prioritise licensed athletes over registered athletes, and athletes with Sport Class Status New may take priority over those with a Review Sport Class Status

If an Athlete is required to attend Athlete Evaluation, they must arrive at the competition prior to the start of the classification period. World Para Swimming will schedule athletes in accordance with the classification period and not arrival dates of athletes. World Para Swimming WILL NOT accommodate any request to change any athlete's classification times.

If an athlete fails to attend Athlete Evaluation at the scheduled time, the athlete may not be permitted to compete at the relevant Competition.

If an athlete is classified Non-eligible (NE) or is designated Classification Not Complete (CNC) they will not be able to compete at the relevant Competition.

Athletes should take note of the Athlete Evaluation Requirements outlined in Article 2 and Part Four 4 of the World Para Swimming Classification Rules and Regulations. Failure to comply with these rules may lead to the suspension of Athlete Evaluation.

Observation in Competition Assessment

Athletes with a physical and intellectual impairment may be required to undergo observation in competition assessment (see article 14, Appendix One and Appendix Three of the World Para Swimming Classification Rules and Regulations).

Note that in case the athlete wishes to be classified in the S sport class, the athlete may require observation in competition following the physical and technical assessment for this class, and for the observation to be completed, the athlete must be entered and swim at least a 100m distance in any S event or must swim in a SM event. The same applies if the athlete wishes to be classified for the SB sport class, with the exception of SB 1-3 sport classes, where observation assessment can be conducted over a 50m distance event. Lastly, if the athlete only wishes to enter an SM event, the athlete may need to be observed for the SB class and this cannot be conducted during an SM event (except to SB 1-3 sport classes). This applies to both athletes with a physical and athletes with intellectual impairment. Please take this into consideration when entering the athletes into events.
